Website Portfolio

EXPERIENCE OF INTERNSHIP / PROFESSIONAL

01/03/2022 – Currently • GTT Tunisia • Developer Engineer • Web Developer : Java (JEE) / JSP
- I work as a JEE Full-Stack Web Developer, using Java (Back-End) / JSP (Front-End) with technologies such as: JavaScript / Ajax / JQuery & Spring / Hibernate / Struts 2.
- My role is to fix bugs / create new features, in existing Web applications.

01/04/2019 – 31/12/2020 • ADP • Associate Application Developer Engineer • Web Developer : Java (JEE) / ExtJS
- I worked as a Full-Stack JEE Web developer, using Java (Back-End) / ExtJS + JSP (Front-End) with a team using Agile SCRUM methodology, Bitbucket for Version-Control & Jenkins for CI / CD.
- My role was to fix bugs / create new features, in existing Web applications.

01/10/2018 – 31/12/2018 • DEUSE SPRL • Developer Engineer • Web Developer : Python (Django)
- I worked as a Web developer using Python (with Django Framework).

05/02/2018 – 05/08/2018 • MSS (Monetics Services Solutions) • Internship Project Engineer • C# (.Net) / Java (Android)
- Development of a Mobile application on Android 4.4.2 (Front-End) using Java, for the consultation of banking transactions via TPE(s), and to follow the statistics via the Business intelligence (BI).
- Development of an ASP.NET Web API Application (Back-End) using C#, which includes RESTful Web Services that will be consumable via the Android client, and tested with the Postman Application (Client).

MY PROJECTS ✚

Development of Video Games with Unity 5 :
- *2d Traffic Car Game :* You have to get away from cars and have the max of the score: game for Android System.
- *Flappy Bird Remastered :* The same flappy bird game but remastred: game for Android System.
- *Shoot'em up 2d Game :* You are a space shooter, you should kill enemies and get max score : game for Android.
